SYNTEX MATERIAL OPTIONS

STANDARD VINYL- 18 oz. PVC - coated polyester vinyl material that has UV and mildew treatments. These covers are manufactured by heat-sealing the seams in the main body of the cover which creates a highly water resistant canopy cover.

Available in 5 colors: (Tan, Gray, Blue, Green and White).

PREMIUM SR VINYL - (SHELTER RITE) - This American made PVC coated high-tenacity polyester material will not rot, shrink or stretch. Shelter Rite offers unparalleled adhesion- which reduces the effects of (wind whip). It has a higher tear strength and superior abrasion resistance- which means fewer repairs- which saves you money! It offers excellent UV protection to ensure that your canopies stay looking good longer! Available in 6 colors: (Tan, Gray, Blue, Dark Green, White and Burgundy). Other colors are available as an option.

HARBOR TIME is an acrylic coated 100% polyester marine fabric which is color coated on both sides. Harbor Time has a unique clear coat applied on both sides of the fabric, which eliminates the possibility of color transfer or rub-off.

Harbor Time Features include:

- ★ Minimal stretch or shrinkage
- ★ Exceptional abrasion resistance
- ★ Long lasting colors
- ★ Resistant to mildew and ultraviolet

Harbor Time offers exceptional water repellency which is ideal for a wide range of marine applications. Available in 5 colors: (Nautical Blue, Shale Gray, Mallard Green, Cordovan and Antique Beige). Other colors are available as an option.

SUNBRELLA is a top of the line marine fabric! It has excellent weather resistant features, which is why it remains beautiful for years.

Sunbrella's Features include:

- ★ 100% solution dyed acrylic fabric
- ★ Water repellent
- ★ Excellent fade resistance

The secret to Sunbrella's long lasting color is found in the solution-dyeing process, which locks colors into the acrylic fibers, so they can't wash out or fade! All colors are available, as well as striped colors.
