

Genuine ShoreStation Dock

Your showroom & boat show solution!

The secret is out – marine dealers across the country are discovering that **Genuine ShoreStation Dock** works as great on land as it does in the water.

Quick & Easy

This dock is engineered for quick installation and easy adjustability. It goes together and comes apart in a snap - for easy set-ups and tear-downs at shows.

Versatile Layout Options

With 3 different section sizes, it's easy to create unique, custom layouts that fit snugly around your product displays, making the most of your floor space.

Attention-grabbing Accessories

Our wide variety of accessories, which makes it easy to dress up your display. From stylish dock chairs and benches to flag poles and railings – everything you need to get noticed.

Natural Style

Dock sections are available in your choice of Nostalgic Cedar for that natural, nautical look, or Maintenance-free Aluminum. Both offer a clean professional look that enhances your product display.

Don't forget our wide variety of accessories, including benches, steps, railings and flag poles. They make it easy to dress up your display and get noticed!

Stylish, durable and best of all – easy to set up & tear-down!

"Our stores get a tremendous amount of traffic – some weekends up to 20,000 customers – so stability and longevity were the deciding factors for us. It has a very firm feel and a solid quality that makes it unique. The adjustable height makes it easy to customize and fit around our different displays. Plus it just has a nice clean appearance that fits well in our stores."

Built to Last

Heavy-duty construction and top-quality materials ensure that this dock can take the punishment of trade show traffic, not to mention the repeated set ups and tear-downs.

Stability = Safety

The wide, A-frame stance provides rock-solid stability that you can't get from any ordinary dock. The adjustable Shore Steps feature a sturdy hand rail to provide your customers with safe access to the dock.

Online 3-D Design Tool

Our handy online design tool has everything you need to design your custom layout. Check it out at **shorestation.com!**
