Use standard lengths and widths to create your ideal dock system.

Roll-In Dock

- High-density molded wheels for ease of installation.
- Standard lake end screw legs for easy adjustment to your lake level without having to get in the water.
- Optional 2" screw legs available for mid-dock and shore end.
- Virtually maintenance-free.

No bars or trusses under the dock means no weeds or spider webs. Solid sides keep your family, guests and pets safe. Bolts and welds are also safely out of the way. VoyageR Docks are made from American-made, all aluminum, marine-grade framing — no flexing, no sagging, no problems. It's the most solid frame on the market.

Titan Decking

Classic Titan Deck

Left: Deck Top - Right: Underside of Reinforced Deck

TITAN DECK

Walk all over us. We can take it.

Underside of Traditional (Unreinforced) Deck

Titan Deck panels are available in Reinforced or Traditional, X-Series or Classic, in mushroom or gray. X-Series Titan Deck is American Disability Association (ADA) compliant.

Underside of Reinforced Titan Deck has aluminum stiffeners which adds strength, rigidity and stability.

X-Series Titan Deck

Above: Deck Top - Below: Underside of Reinforced Deck

R

Titan Deck is made out of polypropylene, a sturdy plastic that will take everything you and Mother Nature can throw at it. All Titan Deck products are maintenance-free and environmentally safe, with a non-slip surface that is barefoot friendly. Titan Deck gives your dock the ability to withstand heavy usage year after year, unaffected by weather conditions or ultraviolet rays. Titan decking does not conduct heat and stays cool even on the hottest days.
