XT Enclosed 7' Wide

XT-227

Available in 12', 14', 18',
22', 24' box lengths

XT Enclosed 8' Wide

TRAILERS ARE SHOWN WITH OPTIONS

XT-208

Available in 12', 16', 20',
22', 24' box lengths

Triton's XT 7' Wide's are an excellent example of an economical aluminum trailer line up full of standard features not found on most other premium lines.

Excellent first step
with all the Triton
values & features

Narrow box
width for better
visibility

Improved
aerodynamics,
ease of towing,
& better gas
mileage

Staggered loading
from the front allows
the last sled to also
use the v-nose part
of the deck to help
fit larger machines
easily.

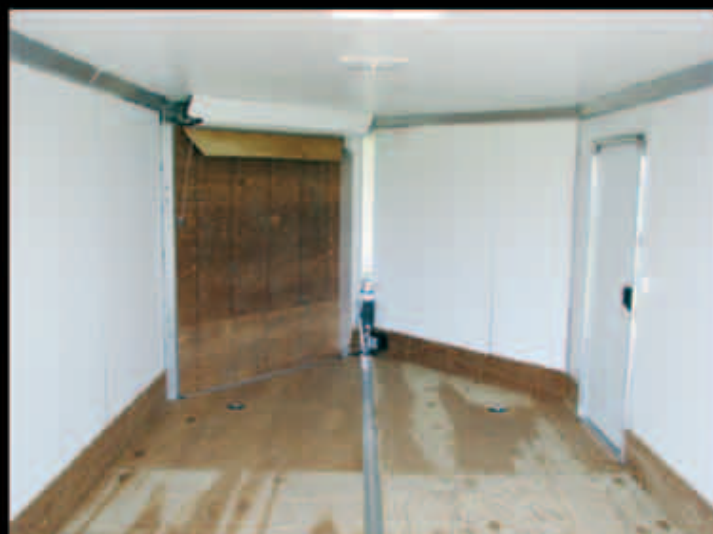

STANDARD FEATURES:

- Fully welded aluminum tubular frame top and bottom
- Ultra clean side walls and V-nose with minimal screws used, eliminates the "battleship" look from 100's of screws
- Sealed housing trailer lights
- Cam Lock door latches with grease zerks for door hinges and latches
- Four cord rubber torsion axles with built-in bearing grease system
- Tall aluminum diamond plate stone guard
- D-ring tiedown positions for securing your loads
- Aluminum diamond plate V-nose and corner trim
- Molded wire harness with 12V automatic breakers inside
- Fully treated marine grade limited lifetime warranty plywood on the deck and ramp door
- One piece aluminum roof skin with caulked screws
- Two interior dome lights with switches on light bases
- Safety chains with spring loaded clips
- Heavy duty aluminum tongue jack with dual wheels
- Spring assisted ramp doors front and rear

Triton's XT 8' Wide's are the traditional choice for quality aluminum trailers with the room for side by side loading.

Traditional roomy
interior for side by side
loading of snowmobiles,
ATV's, & much more

A modestly equipped
example for the XT
Series with minimal
accessories to keep
the trailer in an
economical range.

Shown with white
luan interior on
walls/ceiling, and
side access door
and others.

Standard 7' wide Interior with
optional Side Access Door

LowBoy

PR-LB 20

Available in 16', 20',
22', 24' box lengths

LowBoy Heavy Duty

TRAILERS ARE SHOWN WITH OPTIONS

LBHD 22

Available in 20', 22',
24', 28' box lengths

Triton's Lowboy trailers are the ultimate in hauling everything from snowmobiles and ATV's to work equipment. The more you know what Triton has to offer, the better you will understand why Triton is the one to purchase.

Versatile trailers full of value for work or play

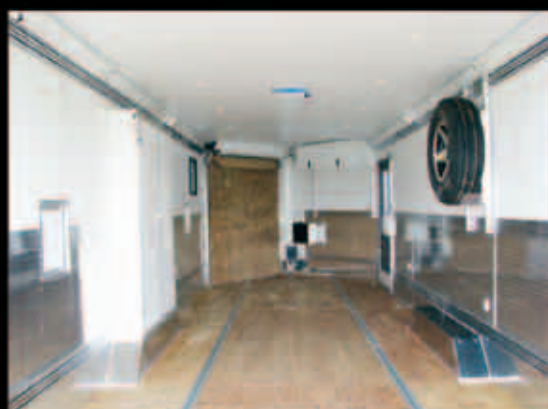

Robust room and low ramp angle for easy loading and tying down

Triton's Lowboy Heavy Duty series has all the Lowboy standards plus more for hauling automobiles, race teams, and other higher hauling weight demanding loads.

The ultimate combination of high strength and low overall weight with a GVWR of 9995#

The Lowboy Series has a large array of accessories available to make the best combination for your specific needs.

See your local Triton dealer for accessory information & details.

Check out Triton's Build-A-Trailer feature online and see your chosen accessories on a trailer!

STANDARD FEATURES:

The Lowboy and the Lowboy HD trailer models all have the same standards features as the Prestige trailer models plus the following standard features:

- A dropped rear beavertail deck with long ramp door

- Partially recessed fender wells inside with plastic skids and polished stainless steel wheel well skirt on the outside

- Four heavy duty D-rings bolted to heavy duty brackets welded on the frame

- 15" Aluminum rims with radial tires, "C" load range rating

- Ball hitch size of 2 5/16"

- Rear frame rollers on the rear axle mounts

- Ramp flaps on both ramp doors

HD Models only:

- Heavy duty frame including a deluxe tongue for a total 9995# GVWR

- 15" Aluminum rims with radial tires, "E" load range rating

- 12" Electric drum or surge disc brake systems

The "Barebones" on Triton Enclosed Trailers

Triton has a five year Limited Warranty on fully enclosed trailers from the date of purchase provided the trailer is warranty registered.
See your dealer for details.

Aluminum Extrusion Roof Cove provides added strength and rigidity to the entire enclosed trailer structure and improved aerodynamics

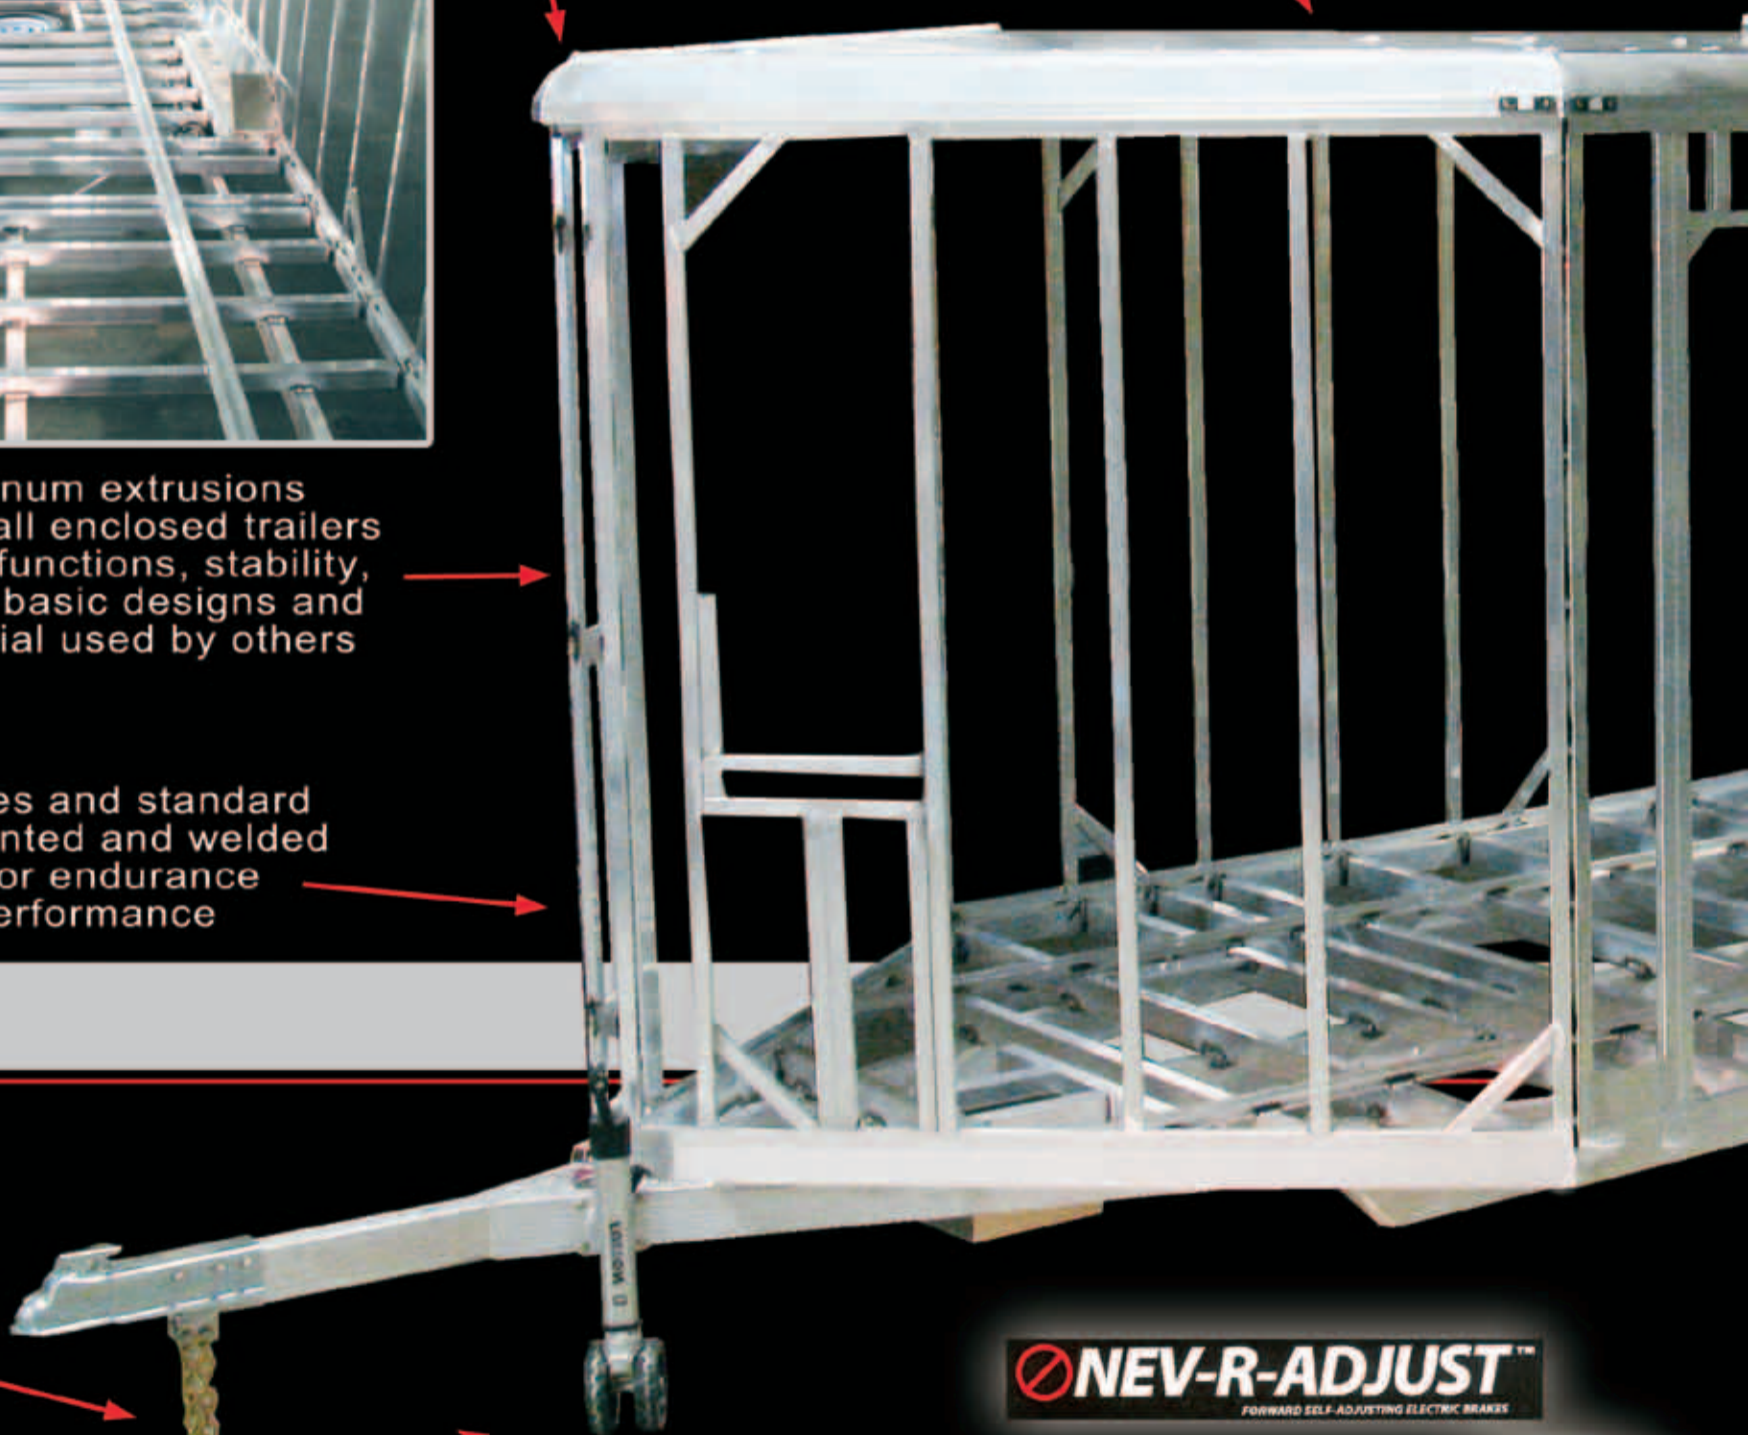

Full length, one piece aluminum roof skin for durability and less leakage over time, no extra seams to work open over time

Custom aluminum extrusions used throughout all enclosed trailers providing added functions, stability, and rigidity over basic designs and c-channel material used by others

Many accessories and standard features are mounted and welded to the frame for endurance and solid performance

Heavy duty chains with spring loaded clips

Triton Surge disc brakes are for superior stopping power, fewer moving parts and less maintenance over electric brakes. A free backing valve aids in bleeding brake fluid pressure off so you don't engage the brakes when going in reverse

NEV-R-ADJUST™
FORWARD SELF-ADJUSTING ELECTRIC BRAKES

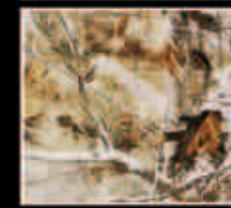

NEV-R-ADJUST brakes are electric drum brakes by Dexter that saves time and money by eliminating the manual adjustments needed for optimal drum brake performance. The NEV-R-ADJUST system will greatly improve stopping distance and safety over improperly adjusted brakes.

Match your trailer color with a color preference you have or for a good color match to your tow vehicle.

Available Colors:

Framed out and gusseted accessories like doors and windows provides years of solid worry free use

All roof skin screws are caulked over for increased life and for less leaks later from rusted or damaged screws

Aluminum box frame has gussets throughout the trailer to strengthen stress areas

Heavy duty aluminum ramp door hinges with grease fitting for long life and smooth operation

Trailer frame is full of heavy duty aluminum tubular material for solid deck strength and long term durability

Frame of a PR-LB24 shown.

TRAILERS ARE SHOWN WITH OPTIONS

Premium flow through grease system for long bearing life and easy maintenance, basically repack your bearing by pushing new grease past both bearings without taking your hubs off

4-Cord rubber torsion axle suspension provides a smooth ride and cargo protection through an independent self-dampening suspension that takes the shock out of rough roads

ACCESSORIES:

Doors & Windows

Triton Door and Window options offer easy step in access and viewing from your enclosed trailer.

Aluminum side access door and optional aluminum step

Side access door with window and optional inside screen door

Concession doors with gas shock arms that lock in place

Available in 48", 60", and 72" door widths

Sliding window with tinted glass and screen, 24"x18" or a larger 30"x20"

Aluminum fold out step

Lighted grab handle

Aluminum Gas doors with locks

Car access door with pull strap and door catch for Lowboy series only

Motorcycle Options:

Also checkout tiedown kits and extra channels for securing motorcycles

Motorcycle closet comes with interior wall and door with a shelf and coat rack inside the V-nose

Aluminum wheel chock for the Triton® Quickslide™ channel

Flip-up wheel chock, 24" flush mounted

Log on to www.tritontrailers.com and check out Triton's Build-A-Trailer feature and see your accessories on a trailer!

See your Triton enclosed dealer for accessory placement details and/or requirements.

ACCESSORIES:

Flooring and Walls:

Triton interior options for the floors and walls can greatly add to the looks and functionality of your enclosed trailer for more even more versatility and easier use.

Finished white lauan walls and ceiling, also available with aluminum skinned walls and ceiling

Walls, ceiling, and floor are available with optional insulation

*Hitch Height of ball will increase 4" if equipped with Surge Disc brakes. Measure your particular vehicles for needed model size. Recommended tongue weight for all enclosed trailers is 7-10% of GVWR. Please note: It is the responsibility of the purchaser to adhere to the brake laws regarding trailers. For full information on the laws in your state, contact the appropriate State Motor Vehicle Department. Brake options will change the overall length of trailer. Brake options are surge disc brakes or electric drum brakes. Contact your local dealer for order lead times. All trailers ordered without brakes will have a GVWR of 2995#. Specifications, & accessories can change without notice.
