## BOAT TRAILERS

### SS1161

#### 9" Fender Replacement Kit

### SS1163

#### 9" Fender Replacement Kit - LF/RR

### SS1164

#### 9" Fender Replacement Kit - LF/RR

#### Assembly Instructions

Remove existing hardware and fender.

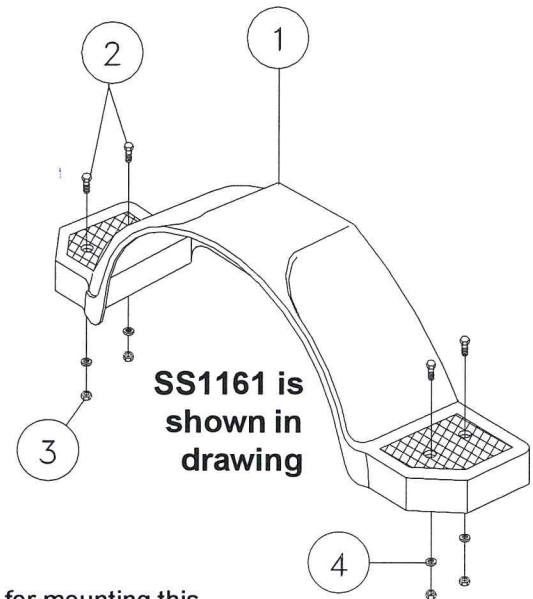

- 4 - 3/8" X 1" hex nuts
- 4 - 3/8" flange lock nuts
- 2 - cupwashers
- 2 - special washers

#### Top Fender Mounting Instructions:

Place nine inch (9") fender (REF.#1) onto fender support bracket matching up the hole locations on both the fender and the fender support bracket. (Older trailer models will not have holes on top of step pads on fender support brackets.)

Secure the nine inch (9") fender to the fender support bracket using 5/16" X 1" carriage bolts (REF.#2), 5/16" lock washers (REF.#4) and 5/16" hex nuts.

If your fender support brackets do not have the holes in the step pads for mounting this fender - Drill four (4) 11/32" holes through step pads on fender support brackets matching new fender hole locations. Use the new hardware supplied with kit if mounting down through fender as shown in drawing.

#### Side Fender Mounting Instructions:

Replace the nine inch ("9") fender use existing hardware.

- 4 - 3/8" X 1" hex nuts
- 4 - 3/8" flange lock nuts
- 2 - cupwashers
- 2 - special washers

Tighten and assembly is complete.

#### Material List

| REF# | PART#   | DESCRIPTION                                    | QTY. |
|------|---------|------------------------------------------------|------|
| 1    | 6184501 | 9" POLY MOLDED FENDER - WHITE (SS1161)         | 1    |
| --   | 6184503 | 9" POLY MOLDED FENDER - BLACK (SS1161)         | 1    |
| --   | 6184506 | 9" POLY MOLDED FENDER - ANTIQUE WHITE (SS1161) | 1    |
