Testimonials

"This is the best dock ever."

Dan, Lake Darling, Alexandria, MN

"Our Dock is excellent, best I could have purchased."

Wayne, Lake Victoria, Alexandria, MN

"After exploring every dock product in our region, we purchased a Voyager dock system in May of 2008 and are extremely satisfied. When we compared the quality in engineering, the features, and the looks, the decision was easy. The result of our "shopping" is that we now own the dock system that all our neighbors are envious of."

Vernon, Breckenridge, MN

"All my neighbors came over to see this big tree that fell on my dock and could not believe that, except for some panels that were easily set back in place, there was literally no damage."

Jim, Deep Lake, Hackensack, MN

Configurations

voyager DOCK

Design your dock to fit your needs today, knowing in the future if you want to add-on you can do so with ease. Voyager Docks set the standard for excellence with a unique design and construction allowing for endless configurations without sacrificing stability. Side rails are equipped with bolt slots eliminating the need for unsightly drilling, or tedious hole alignment, making moving or adding accessories a breeze.

Docks

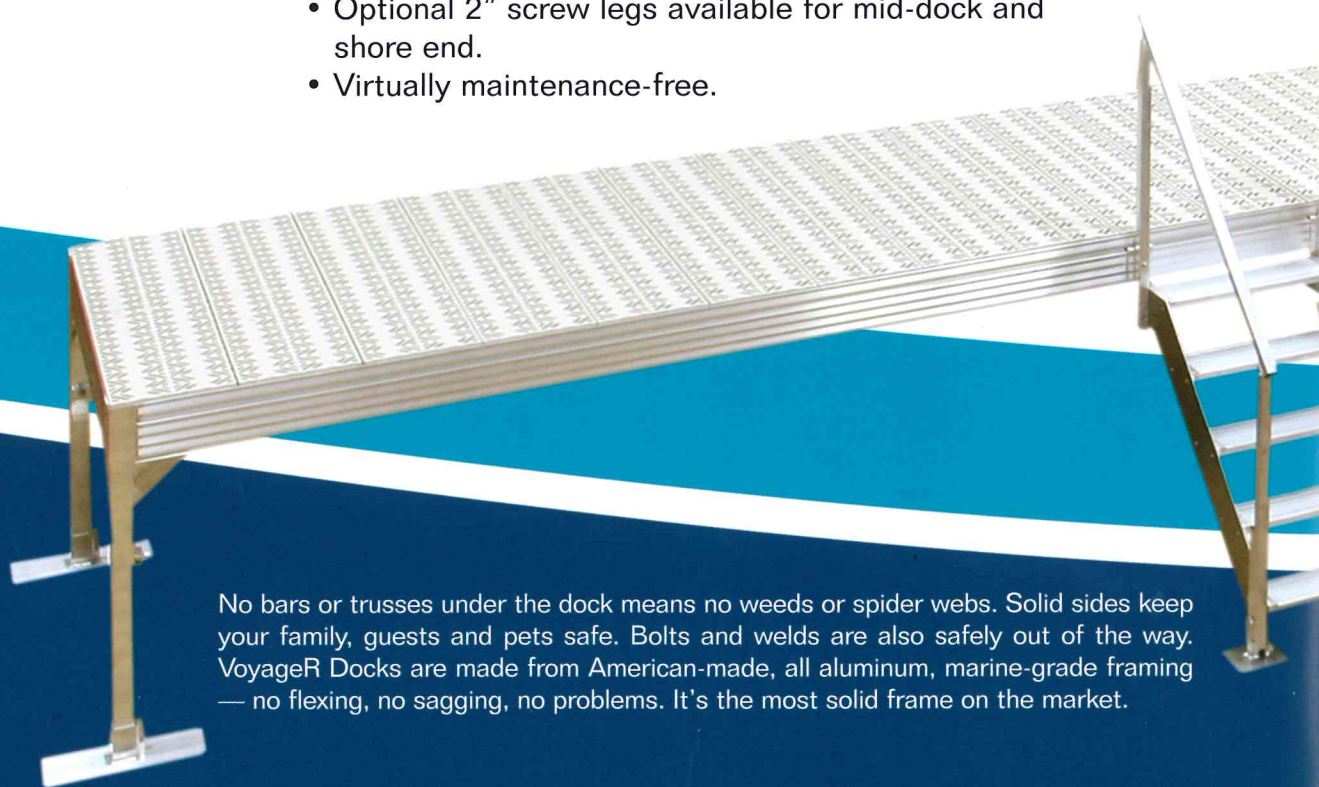

Available Dimensions

Width	Lengths	
4'	8' Standard	10' Standard
	12' Standard	16' Standard
	20' Special Order	
5'	8' Standard	10' Standard
	12' Standard	16' Standard
2'	8' Special Order	10' Special Order
	12' Special Order	16' Special Order
3'	8' Special Order	10' Special Order
	12' Special Order	16' Special Order
	20' Special Order	

Use standard lengths and widths to create your ideal dock system.

Roll-In Dock

- High-density molded wheels for ease of installation.
- Standard lake end screw legs for easy adjustment to your lake level without having to get in the water.
- Optional 2" screw legs available for mid-dock and shore end.
- Virtually maintenance-free.

No bars or trusses under the dock means no weeds or spider webs. Solid sides keep your family, guests and pets safe. Bolts and welds are also safely out of the way. VoyageR Docks are made from American-made, all aluminum, marine-grade framing — no flexing, no sagging, no problems. It's the most solid frame on the market.

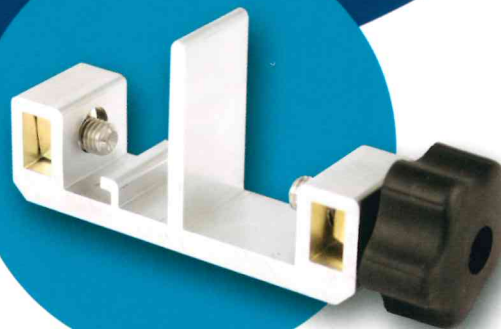

Standing Dock

Simple to install, level and remove.
Once you set it, you can forget it.

*Shown with Classic Series Titan Deck,
Starter Bracket Kit and Ramp.*

Plus, our optional 2" screw legs allow
for easy height adjustment without
having to get in the water.

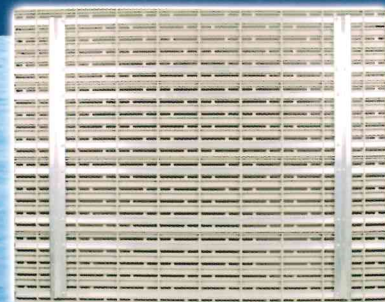

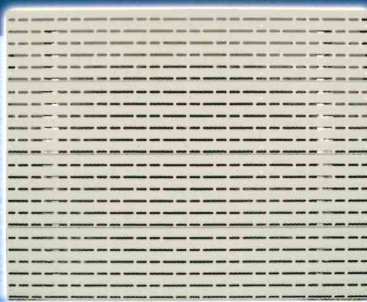

The new and innovative Rapid-Link Bracket
makes installation and removal a breeze.

Titan Decking

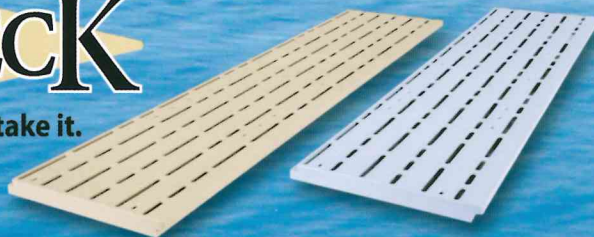

Classic Titan Deck

Left: Deck Top - Right: Underside of Reinforced Deck

TITAN DECK

Walk all over us. We can take it.

Underside of Traditional (Unreinforced) Deck

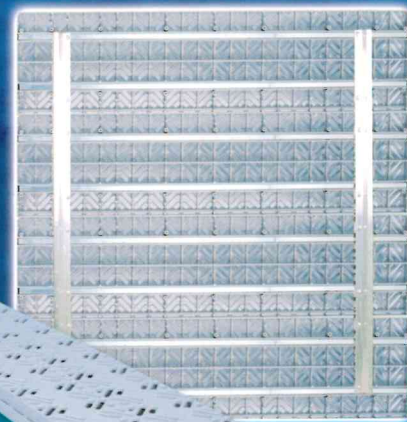

Titan Deck panels are available in Reinforced or Traditional, X-Series or Classic, in mushroom or gray. X-Series Titan Deck is American Disability Association (ADA) compliant.

Underside of Reinforced Titan Deck has aluminum stiffeners which adds strength, rigidity and stability.

X-Series Titan Deck

Above: Deck Top - Below: Underside of Reinforced Deck

R

Titan Deck is made out of polypropylene, a sturdy plastic that will take everything you and Mother Nature can throw at it. All Titan Deck products are maintenance-free and environmentally safe, with a non-slip surface that is barefoot friendly. Titan Deck gives your dock the ability to withstand heavy usage year after year, unaffected by weather conditions or ultraviolet rays. Titan decking does not conduct heat and stays cool even on the hottest days.

Build the best docks, then put it in writing.

VoyagerR Docks are manufactured in the heart of the Minnesota lakes country with the customer in mind. VoyagerR recognized the need for a lightweight, durable alternative to steel and wooden docks, so we created the ultimate aluminum dock system — one that is strong, durable and stylish.

VoyagerR Aluminum Inc. warrants all VoyagerR brand docks purchased new by the original owner to be free from defects in the aluminum structure and welds for a period of fifteen years.
