

Installing 5 ft Filler Piece on Wave Dock, Part #21927

1. Slide Filler piece into the H-channel on the dock. The filler piece may be cut to fit between any accessory attachments on the dock, such as post adapters or bumpers. Just measure the distance needed and cut the filler piece to fit. May be cut with table saw, radial arm saw, handsaw, skilsaw, etc. The filler piece will fit snug enough that it does not require any fasteners.
