Aluminum Frame

All Atomic13 models use an aluminum frame. The frame uses a full length axle runner with recessed cross members for superior floor support.

ATOMIC13-101-10-WB

10' x 101" Deck, Wishbone Tilt Tongue, All Aluminum Frame with full length axle runners for full floor support, 1/2" Marine Grade Plywood Floor, 14" Adjustable Tie Down Channels.

Standard Features

Torsion Axle
2200# Galvanized Axle Body, Arm, and Sure Lube Hubs

Roller Guided Ramps (VR Only)
All V-front trailers come with a roll out ramp assembly. The roll out design allows for locking of the ramp and eliminates the ramp from rattling.

Lighting

All lighting is fully grounded with plug in harnesses and grommet style lights. All corner clearance lights are 3/4" LED lights to minimize the amount of structural material removed.

Aluminum Ramp (VR only)

All V-front trailers come with a light weight aluminum roll out ramp assembly with plastic ski guides. The roll out design allows the ramp to be locked and eliminates rattling during travel.

Rear Ski Pad

New rear HDPE ski pad protects the aluminum from damage caused by ski carbides.

Tilt Lock (WB only)

Tilt trailers use the new easy to use tilt lock system, which includes a tension bolt to remove the tongue noise and is lockable

Steel Tie Down Bar

14" adjustable tie down channels with key holes for quick release.

ATOMIC13-101-10-VR

10' x 101" V-Front Deck, Wishbone Tongue, Light Weight Aluminum Rollout Ramp with Ski guides, All Aluminum Frame with full length axle runners for full floor support, 1/2" Marine Grade Plywood Floor, 14" Adjustable Tie Down Channels.
