

ALUMINUM SNOWMOBILE TRAILERS

PROVIDING TRITON VALUE YEAR AFTER YEAR

Triton VALUE has been built on the continual use of innovative designs, quality components, and a full list of standard features in every model.

Covers can be matched up with many of Triton's open snowmobile trailer models. Coveralls available for most 10', 11', and 12' long models, see pages 10 & 11 for details.

STANDARD FEATURES:

FULLY WELDED ALUMINUM ALLOY FRAME WITH CUSTOM EXTRUSIONS

TWO PIECE MOLDED WIRE HARNESS, NO SPLICES TO FAIL AND CORRODE

RUBBER GROMMETED AND SEALED LIGHTS WITH PROTECTIVE LENSES

E-COATED FOUR CORD RUBBER DEXTER TORFLEX TORSION AXLE

FLOW THROUGH EZ-LUBE GREASE SYSTEM WITH LITHIUM GREASE

SAFETY CHAINS WITH SPRING LOADED CLIPS ON THE HITCH HOOKS

FULLY TREATED LIMITED LIFETIME WARRANTY MARINE GRADE PLYWOOD

REPLACEABLE REAR DECK PROTECTOR FOR PROTECTION OF THE BACK EDGE OF THE PLYWOOD DECK

COMPOSITE SKI DEFLECTORS ON THE REAR DECK PROTECTOR (NON-RAMP MODELS)

RECESSED STANDARD INSERT NUT WITH THREADED CRANK HANDLE

GULLWING STYLE TIEDOWN BARS

FULL DECK LENGTH QUICKSLIDE™ TIEDOWN CHANNEL WITH SUR-LOCK TIEDOWN HANDLES (LOCKABLE WITH OPT. PADLOCK)

DECALS WITH REFLECTIVE STRIPING THE FULL LENGTH OF THE SIDE RAIL

PROTECTIVE END CAPS ON THE SIDE RAIL CORNERS

XT

ELITE

XT SERIES:

An excellent step into an aluminum trailer for your sleds, ATV's, and more. Lightweight, easy to use, and solid designs.

ELITE SERIES:

Loaded with all the features giving you the most versatility, ease of use with additional market leading and innovative designs.

TRAILERS ARE SHOWN WITH ACCESSORIES.
SEE FOLLOWING PAGES FOR DETAILS

XT SERIES: SNOWMOBILE TRAILERS

The XT series starts where most others end, with unsurpassed features and value in every model.

XT4.5
10' x 53" tilt deck,
straight pole tongue,
straight front.

XT10-101
10' x 101" tilt deck, wishbone tongue,
straight front. Available as XT11-101
or XT12-101.

XT11D-101
11' x 101" tilt plus V-front deck,
straight pole tongue. Available
as XT12-101 or
Elite11D-101.

XT12VR-101
12' x 101" plus V-front
deck, straight pole tongue,
aluminum ramp. Available
as XT10VR-101.

XT20-101
20' x 101" plus V-front, for four
snowmobiles, A-frame tongue,
aluminum ramp. Available as XT22-101.

XT Series Standard Features:

All aluminum frame using custom integrated extrusions for light weight durability and strength
E-coated four cord rubber torsion axles for a smooth ride and independent suspension

EZ Lube™ built-in axle grease system for ease on maintenance and positive packing of both bearings and the hub

1/2" Fully treated marine grade plywood with a limited lifetime warranty for extended years of outdoor use

Sealed lights and protected wiring for years of use and longer protection from corrosion

Steel vinyl dipped gullwing tiedown bars for securing your snowmobiles

Safety chains with spring loaded clips

Tilt deck trailers come with tongue latch system to eliminate rattling and possible tongue damage

Non-tilting V-front trailers come with an aluminum ramp (shown on XT12VR-101) that has a "step in" gap for easy handling

Rear ramp storage under the deck includes the ramp clamp system which applies pressure to the ramp for less rattling and secures with the provided padlock

Aluminum rear deck protector protects the back edge of the plywood deck from damage when loading machines and equipment

Capped and chromed lug nuts for both style and corrosion protection

Details of standard features on pages 6 & 7

By using the optional #08519 Spare Tire Carrier opposite of the #01145 Tongue Jack on the tongue (plus the spare tire) is a great way to save space (shown left on the XT12VR-101).

XT16-101
16' x 101" plus V-front, for three
snowmobiles or for four ATV's, A-frame
tongue, aluminum ramp. Available in a
long two place XT14-101 and as a single
axle trailer, XT14-101-1.

ELITE SERIES: SNOWMOBILE TRAILERS

Triton Elite trailers are loaded with features, and innovations for unmatched versatility and durability not found on others trailers. The more you know the better we look.

ELITE 5

12' x 62" tilt deck, straight pole tongue, straight front.

ELITE 10-101

10' x 101" tilt deck, straight pole tongue, straight front. Also available, Elite11-101 and Elite12-101.

ELITE 12-101WB

12' x 101" tilt deck, wishbone tongue, straight front. Also available, Elite10-101WB and Elite11-101WB.

ELITE 12R-101

12' x 101" tilt deck, straight pole tongue, straight front. Also available, Elite10R-101. Comes with pull out aluminum loading ramp.

**RAMP ON &
TILT OFF THE REAR**

**RAMP ON/OFF
FROM THE REAR
WITHOUT TILTING**

DRIVE YOUR SNOWMOBILE ON THE TRAILER WITH USING THE RAMP AND TILT OFF WITH EASE. USING THE OPTIONAL SKI GUIDES AND PADDLEGRABBERS ALLOWS THE PROCESS TO BE HASSLE FREE.

**ADD A TRITON COVERALL
TO YOUR TRITON 10', 11', OR
12' SNOWMOBILE TRAILER
SEE PAGES 10-11**

ELITE 12VR-101

12' x 101" plus V-front deck, straight pole tongue. Also available, Elite10VR-101. Comes with pull out aluminum loading ramp.

**CHECK OUT ALL OF THE ACCESSORIES
AVAILABLE ON PAGES 8-9**

ELITE 16-101

16' x 101" plus V-front deck, tandem axle three place, heavy duty A-frame tongue, aluminum ramp. Available as long two place, single axle Elite16-101-1.

Elite16 trailers will have a centered third tiedown position using a static insert nut system and tiedown screw

OPTIONAL RAMP SHIELDS ARE POPULAR OPTIONS ON TANDEM TRAILERS (AS SHOWN)

ELITE 22-101

22' x 101" plus V-front deck, heavy duty A-frame tongue, aluminum ramp. Available as Elite20-101.

CHECK OUT ALL OF THE ACCESSORIES AVAILABLE ON PAGES 8-9

ELITE SERIES

Standard Feature highlights:

Full length reflective decals on both side rails for better visibility and presence on the road

5/8" fully treated marine grade plywood decks that have a limited lifetime warranty

Larger aluminum rear deck protector to improve the approach angle when loading and to protect the back edge of the plywood from damage

Ski Deflectors on tilt bed models (without ramps) for less friction when loading onto tilted models

Aluminum gullwing tiedown bars with vinyl boots for securing your snowmobiles with the Sur Lock tiedown cranks, lockable with optional #03164 long shackle padlock (shown on page 7)

Full deck length aluminum Quickslide™ channels for the Sur-Lock tiedowns which enables the user to easily adjust the tiedown position down the entire length of the deck.

Optional Quickslide™ kits are available for securing the back of snowmobiles and other loads like ATV's, UTV's, motorcycles and more.

All tandem axle trailers come with heavy duty 2500# torsion axles (excluding the Elite12VR-101-2)

ELITE 14-84

14' x 84" plus V-front deck, heavy duty A-frame tongue, aluminum ramp.

Optional #12240 Bi-fold Ramp Shield Kit for easy loading & lower profile down the road (Elite14-84 only)

Elite 14-84 Standard Features:

An 84" wide deck which is easier to see around and tows better, Stagger 2 sleds or side load 3 ATV's (below) by using the slide out aluminum ramp (rear stored under the deck) on either the side rails or rear for loading

Holes for securing side loaded ATV's in side rails
Heavy duty aluminum A-frame tongue

ELITE 14-84 ACCESSORIES

For your Elite14-84 trailer add the #11140 Rail Kit (shown right) or the #11130 Side Kit (shown lower right) for more hauling options and safety.

ELITE 14-84

Easy side loading front & back with standard ramp

TRAILERS ARE SHOWN WITH ACCESSORIES. FOR FULL TRAILER LINEUP & DIMENSIONS SEE SPECIFICATION CHART.

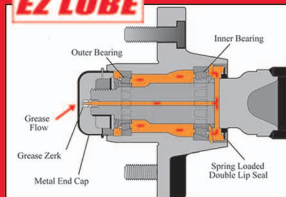

STANDARD FEATURES:

ALL TRITON SNOWMOBILE TRAILERS

Triton uses aluminum extrusions with innovative cutting edge designs to add function, rigidity and strength in key areas where it is needed the most. This allows Triton to add strength where others are lacking.

EZ LUBE

The **EZ LUBE** bearing grease system will add years of life to your bearings. When you push grease into the grease zerk fitting, the grease travels through the spindle, past the inner bearing, past the outer bearing and back to you effectively placing new grease throughout the hub.

Four Cord Rubber Torflex axles from Dexter Axle provide a smooth ride and independent suspension for your trailer. This also makes for a safe hauling experience with less maintenance.

WISHBONE TONGUES

Every tilt trailer made by Triton will have standard a tongue latch system which will take out the slack between the deck and the tongue of the trailer. This slack is what creates a rattling noise which over time will worsen and possibly damage your trailer tongue and deck. Enjoy a quiet ride for many years and miles with Triton's tongue latch systems.

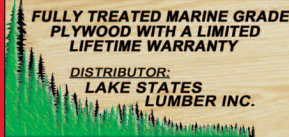

STRAIGHT POLE TONGUES

TRITON TRAILER WARRANTY

Triton has a two year limited warranty when you register your Triton trailer (non-registered trailers have a one year warranty).

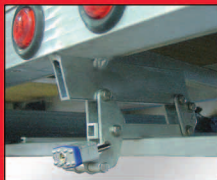

Other warranties are available like the limited lifetime warranty on the fully treated marine grade plywood which is used on every plywood deck for years of worry free use. Visit Triton online for warranty details.

All Triton snowmobile trailers have sealed lights with shock proof lenses, mounted in rubber grommets, molded wire harnesses (no splices to fail) and protected front leader harness. LED lights are an available upgrade.

Triton trailers standard with pull out aluminum ramps will have the patented Ramp Clamp system. The Ramp Clamp secures tightly and holds the aluminum ramp under the deck by placing pressure on the ramp's frame to minimize and dampen the ramp rattling found with other trailer brands. The Ramp Clamp comes with a padlock to secure the ramp when hauling. (shown right)

All trailer models come with quality spring loaded s-hooks and a snapper pin for the coupler. This adds security and safety to every Triton trailer on the road.

STANDARD FEATURES: ON XT SERIES TRAILER MODELS

A quality 1/2" Fully treated marine grade plywood deck with limited lifetime warranty.

The XT Series have the traditional crank screw with insert nut for proven durability and long life. The XT Series also has steel vinyl dipped gulling tiedown bars.

Aluminum extruded rear deck protector, preventing plywood edge damage, larger protector on Elite models. V-nose models also have protection in front.

STANDARD FEATURES: ON ELITE SERIES TRAILER MODELS

A quality 5/8" Fully treated marine grade plywood deck with limited lifetime warranty.

Triton Elite Series trailers have reflective decals the full length of the side rails for added security and visibility on the road.

Ski Deflectors are installed on rear deck protectors of Elite (tilt only) models that do not come with a rear loading ramp.

Optional Ski Deflector Kits are available for the tilt only XT models (#14900) and XT4.5 trailer (#14901).

All Triton Elite Series trailers have protective vinyl end caps on all four corners of the deck.

The Elite Series models have quality aluminum gulling tiedown bars equipped with vinyl boots on the ends.

The Elite Series come with the Sur-Lock system (above) for use in the Quickslide™ channel (right). With a few turns of the stainless steel handle, the Sur-Lock system will turn in or out of the Quickslide™ channel. The Sur-Lock handle can be locked down with the optional #03164 padlock. The

Quickslide™ channel (right) has drain holes that runs the full length of the deck. Several optional kits are available for securing and for hauling different loads, see accessories on pages 8-9, for details.

TRAILER BRAKE OPTIONS

DEXTER ENGINEERING TEST RESULTS

Trailer with Properly Adjusted Brakes

Trailer with Under Adjusted Brakes

STOP IN HALF THE DISTANCE!

Stopping Distance at 60mph

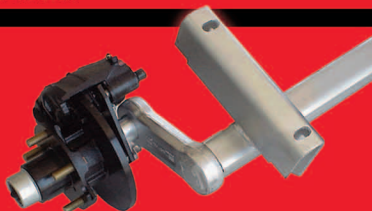

ELECTRIC DRUM BRAKES

Triton Trailers with Electric Drum brakes have forward self adjusting brake drums called the **Nev-R-Adjust™** system.

Electric brakes without the Nev-R-Adjust system typically needed time consuming maintenance for proper brake performance. The Nev-R-Adjust brakes will automatically adjust the electric drum mechanisms to assure proper braking and improved stopping, important when in emergency situations.

SURGE DISC BRAKES

Triton's **exclusive** Surge Disc Brakes system has more than **three times** the braking power of drum brakes allowing you to stop in emergencies!

Fewer moving parts, no interior rusting and self cleaning means less maintenance. No brake delay, fast brake cooling, and brakes that self adjust, all makes a quality braking system to own.

ACCESSORIES:

TRITON SNOWMOBILE TRAILERS

Triton accessories allows to you use the versatile designs and styles to add more ease and function to every trailer. Further fit the trailer to your needs and uses.

FOR SINGLE AXLE V-FRONT TRAILERS

Add the #06942 DOS Shield to your V-front trailer for easy drive-off use and acts as a salt shield.

XTD model trailers should have a gas shock or spring lift kit (shown right) installed to assist in tilting the deck with the added shield weight.

TILT ASSIST KITS

Hold up your tilted trailer before you start to load with a Triton Gas Shock Kit. The #06933 Gas Shock Lift Kit is for straight front tilt decks, and the #08267 Gas Shock Lift Kit is for V-front tilt decks.

Spring lift kits are great for holding up your tilted deck with salt shields, coveralls, and ramp shields installed.

The #03173 Spring Lift Kit is for straight pole tongues and the #07984 Spring Lift Kit is for wishbone tongues.

FOR TANDEM AXLE V-FRONT TRAILERS

For added protection and ease of unloading the #07782 Ramp Shield (shown left) is a very popular kit which is great for ATV's too. The #09576 DOS Shield (shown lower left) is also another option with more style. Both kits fold down for unloading and do not require you to turn or angle the trailer behind the vehicle.

ALUMINUM WELDED W/HIGH DENSITY PLASTIC RUNNERS

#11840 Ramp Extension Kit is for trailers with taller upgraded tires to decrease the steep ramp angle created due to the increased deck height.

The #04775 Aluminum Salt Shield is a popular and durable accessory to have. It is common to install a gas shock or spring lift kit to aid you in tilting the deck with the added salt shield weight.

EXCELLENT COMBINATION

A great space saver for your trailers tongue by using the optional #08519 Spare Tire Carrier (lockable with an optional #03164 padlock) and the #01145 Swivel Wheel Tongue Jack. Order an optional matching spare tire separately.

The simple and easy to use #02464 Spare Tire Bracket Kit is lockable with optional padlock.

DECK PROTECTION KITS

Triton Ski Guides protect your deck and work well with today's dual carbide ski's. Ski guides come in 5' lengths (#07289) and 6' lengths (#07289-1). Each kit will outfit a 10' or 12' deck.

The #09530 Paddlegrabber Kits (two kits are shown below) adds superior traction and deck protection to any Triton snowmobile trailer. Counter sunk holes molded into the Paddlegrabber design makes mounting this kit to any deck easy with the provided premium screws. This kit also helps prevent track freeze and is very easy to clean out making rubber mats obsolete.

The #07994-P 1 1/16" Bearing Kit will provide all you need to do one full axle along with a tube of Elite Lube high speed lithium axle grease. Also available is the #07995-P 1 3/8" Bearing Kit for the Elite16 and XT14 single axle trailers.

The #02784 Stake Pocket Kit allows you to add any kind of sides you want to your trailer. Comes as a bolt-on kit, 10 stake pockets with hardware.

WHEEL COVERS

Dress up your trailer and protect your hubs with Triton Wheel Covers for 8" rims (#02620, shown above left) and 10" rims (#03376, shown above right).

Add PWC hauling possibilities to your trailer with #06243 PWC Bunk Kit with bow post, the #06267

Hi Pro Bunk Kit or the #06265 Lo Pro Bunk Kit.

The simple to use #02446 Add-A-Nut Kit allows you to add another tie-down position to your trailer's deck.

TIEDOWN OPTIONS

These D-ring style tie-downs are bolt-on kits with a backing plate for a secure and a strong tie-down position. Both the #07835 Flush Mount Tie-down Kit, and the #07834 Recessed D-ring Tie-down Kit are sold in pairs.

Easy to use and fully adjustable the whole length of the Quickslide™ tie-down channel on Elite trailers. The #08840 Quickslide™ Tie-down Kit (right), and the #07837 Quickslide™ Eyebolt Tie-down Kit (below) are both sold in pairs providing a strong position for your straps.

The popular #06963 Front Rail Kit is a strong aluminum rail for an added "safety catch" while loading onto a 96" or 101" wide snowmobile trailer.

Haul motorcycles with your trailer with the optional #11116 Quickslide™ Wheel Chock Kit. If you don't have the channel in your deck then order just the chock (#03666) only and hardware separately.

RAMP FOR XT4.5 ONLY

Add more uses to your 10' long deck trailer with the #08820 Rail Kit & the #09552 Add-on Ramp.

Protect your machines on your XT4.5 or Elite 5 snowmobile trailer with a Buck Rail Kit and Stone Guard Kit.

XT4.5 - #11413 Buck Rail Kit
 - #11414 Stone Guard
 Elite 5 - #11409 Buck Rail Kit
 - #11410 Stone Guard

COVERALLS: 2KF TWO PLACE COVERS

Quality Triton Coverall installed on a Triton snowmobile trailer completes a towing package that keeps your toys clean and safe from the elements. Triton Coverall sizes are 10', 11', 12' long and 101" wide.

2KF COVERALL ON A
XT12VR-101 TRAILER

2KF 4X4 COVERALL ON
A ELITE11-101 TRAILER

The **2KF 4X4 Coverall's** have a large 4'x4' access door that is an easy to use "step in" access into the cover, this allows for an easy reach to the tie-downs.

The **2KF Coverall's** have the standard 2'x4' front access door to get into the coverall's front area.

COVERALL STANDARD FEATURES:

Aluminum diamond plate kick panel and stone guard for protection and durability for years to come

Welded aluminum unibody frame throughout for durable structural integrity and hassle-free use

Stainless steel pins with lanyard, can be locked into place with the optional #03164 padlock

Tapered side panels for better aerodynamics on the road and improved gas mileage

54" interior clearance height

Dual air flow vents for air flow and moisture control

T-handle cover protects the key hole on the latch from the elements

All Triton Covers come with a safety prop arm for the added safety from extra weight on the cover and/or windy days

Gas shock lift kit opens the rear of the trailer only (shown right, used on 10' and 11' tilt trailers) trailers. Center prop arms will allow you to open the rear or the front of the coverall on all trailers but is required on all V-front models and/or trailers with 12' decks.

(shown left).

Riser brackets lift the center prop arms up to give you the widest ski stance clearance on the marketing (left)

PICK THE COMBINATION THAT FITS YOUR NEEDS

COVERALLS: 2KF SINGLE PLACE COVER

Single Place 2KF Coverall gives you a narrow easy to see around and easy to tow option for one machine.

The 2KF Single Place Cover installs only on the Elite 5 snowmobile trailer.

This trailer can be used for motorcycles when rear tiedowns and wheel chock is added.

The same 2KF Coverall standard features with a 62" inside clearance.

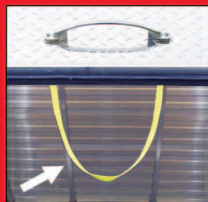

TRAILERS & COVERALLS ARE SHOWN W/OPTIONS

COVER ACCESSORIES

Add the #03164 Long Shackle Padlock to your cover, a simple solution to locking down your cover by using the existing holes and pins.

#10810 Pull Strap Kit gives you the extra reach that you might need to pull the coverall down.

#10484 Dome Light Kit installs the interior dome light for more light inside. (not shown)

#09356 STT Light Kit will light up your cover for more presence on the road and added safety. Includes the marker lights, dome light inside, & the tail lights.

#07869 Marker Light Kit includes the marker lights and an interior dome light. (not shown)

#11290 Lighted License Plate Kit installs easily on coversalls.

LED LIGHTS ARE AVAILABLE FOR ALL TRITON TRAILERS & COVERALLS

TC SERIES

TC118

The NEXT STEP in trailer hauling is a TC enclosed series trailer. This is not a covered snowmobile trailer, this is an enclosed trailer with a spring assisted rear ramp door, aerodynamic design, and a roomy interior for all your toys. The TC's have models for loading ATV's or sleds side by side or narrow TC models for staggered loading of sleds or ATV's inline.

Ask for our TC Series brochure or visit online for the full selection of models and accessories available.

TC'S CAN HANDLE THE LARGEST STOCK SLEDS ON THE MARKET
